The Back drop and Overcome: The whole stretch of the northern track of Assam bordering with the royal Bhutan is most problem prone area fastened with so many vulnerabilities and deficiencies. This is the most far flung and under developed specific area for which Govt. of India made the provisions of the Sixth Schedule area (BTC) for here more emphasis on the probable measures on the for development. Torrential rivulets and streams flows down from the Hills of Bhutan and flash floods occur during monsoon causing inundation and erosion affecting the villagers gravely and the result is obviously devastating causing economic loss. The population of the Block is 1,81,000 comprising 25 nos. VCDCs with 257 nos. of villages.

But a part of this some villages of Rowmari VCDC , situated on the far side of Khujia River, was devoid of any connectivity to the mainland. As part of Mahatma Gandhi NREGS, **R.C.C. Foot Bridge** was constructed **over Khujia River** connecting this remote part with the mainland. This well-executed project under Mahatma Gandhi MGNREGS helped the four villages of Rowmari Gram Panchayat area to overcome their daily woes of commutation.

Formulation of the Scheme: Gram Sabha was held at Kusulupara village on 25/03/2019 at 11.00 A.M. The Job demand emerged in the VCDC was discussed and the urgent need of RCC Foot bridge work of Kusulupara village was there and the scheme proposal was incorporated in the shelf of schemes already. So, the implementing agency of the Block (as to be assisted by the VCDC) was urged for immediate construction work for better communication with other village.

Scheme Provisions: Rs.18,00,111.00 Lakh was estimated for provision of wages to the Job Card holders and Rs.11,99,889.00 Lakh was made provision for Purchase of materials Such as TMT bar, Sand, Cement, Chips ,Boulder etc.
